Shipments from Milwaukee.

It will be seen, by the summary in our Weekly Review, that there have been shipped from Milwaukee, thus far this season, 96,072 bbls. flour, and 891,435 bus. wheat, against 50,161 bbls. flour and 380,204 bus. wheat for the same period last year. This is an increase, for the present season, of 45,911 bbls. flour and 506,141 bus. wheat. The aggregate shipment, reducing wheat to flour, is 1,371,795 bushels of wheat; worth, at a moderate estimate, over *one and three-quarter millions* of dollars. No other port on the lakes can show anything like the same amount of Flour and Wheat shipped up to date of the current season.

Gov. Walker in Kansas.

The N. Y. *Herald* reports the arrival of Governor WALKER in Kansas, and gives us the two leading ideas of his Inaugural. The first is, that the outrageous enactments of the *bogus* Territorial Legislature "must be enforced;" and the second, that he will endeavour to have the Constitution, which is about being framed, submitted to the People. If this last promise is made and be kept, in good faith, Kansas will be *Free!* but if, by "*The People*," Gov. WALKER means those only whose names are to be found on the "Border Ruffian" Registry, Kansas will ask for admission into the Union as a Slave State. So far as REPUBLICAN voices in Congress are concerned, she will ask in vain. If the curse of Slavery be fastened upon her, it will be done by "Democratic" hands.

DISCORDANT ORGANS.—The *News* oracularly declares that "no cliques now are recognized in the ranks of the Wisconsin Democracy," and officially certifies "that complete harmony reigns among their legions." The Sheboygan *Journal*, which has not heard the news, thus protests against the nomination of Mr. ROBINSON for Governor:

> We cannot coincide with the *Pinery* in the beliefs that the suggestion of the Fond du Lac *Journal* is "a good move in the right direction." We do not believe that Mr. Robinson, *or any other man of his stripe of politics*, would prove popular candidates, or such as, under the present state of political feeling in this State, could even be elected.

The "stripe" referred to is the anti-Barstow stripe, which is by no means the style of livery that the *News* and *Journal* sport.

☞ The *Sentinel*, a few days ago, asserted that the Know Nothing and Democratic parties united in Iowa, and this was traced the Republican defeat. We consistently denied this *fact* of the *Sentinel's*, and challenged the proof, when lo! it quotes a "LETTER" to the New York *Express*, and there "rested from his labors." *American* of yesterday.

Of course we did. Having *proved* the "fact" which we had stated and which the *American* disputed, what need to say more? Enough is as good as a feast.

Milwaukee and Horicon Railroad.

This favorite enterprise continues to make sure and steady progress towards the Wisconsin River and Lake Superior. The road is now in operation to RIPON, Fond du Lac County, eighty-two miles northwest from Milwaukee. The next section of eleven miles brings the road to BERLIN, a very thriving and populous town on the Fox River. The grading between Ripon and Berlin is well advanced and will be ready for the iron as soon as the latter comes to hand. This will be in two or three weeks, as all the rails, spikes and chairs required have been purchased and are now on their way between New York and Milwaukee. Beyond all reasonable doubt, therefore, the road will be completed and opened for business to Berlin during the course of next month. This extension will add materially to the business of the road and furnish fresh evidence to stockholders and others of the value and merits of the enterprize.

Proposals for building the road from Berlin to Stevens Point, on the Wisconsin, have been invited by the Company, and are now under consideration. It is not doubted that a very favorable contract will be made for this division of the work. Above all, the scheme recently put forth by this Company, to buy a million of acres of *selected* lands from the Government, and apply the proceeds towards building the road, meets with a great deal of favor, and promises to be entirely successful. The New York papers, without exception, endorse the project, and recommend it to the notice, not of capitalists only, but of mechanics, laboring men and others of limited means. We copy an article on the subject from the N. Y. *Courier & Enquirer*, which reflects the general opinion of the public and press:

MILWAUKEE AND HORICON RAILROAD.

The efforts of the Directors of the Milwaukee and Horicon Railroad Company to distribute their land shares in small sums, and amongst those who intend to cultivate the land, while they must tend to increase the business of the road, and to render its ordinary stock the more valuable, are worthy of all commendation for the opportunity afforded to persons of small means to secure first quality land near the line of the road at its exact cost. On no other railroad can first quality farming land be obtained for less than $15 per acre, or $1200 for an 80 acre parcel. No doubt it is in most instances worth the money; but where there is one laboring man possessed of that sum there are, perhaps, a thousand who cannot command more than $200, and it is this numerous class, particularly, that is to be benefited by the arrangements of this Company. For a cash payment of $200, they deliver two certificates of Stock, one of which represents a single share of the ordinary Stock of the Company, worth at par $100, and the other, called "Privilege Stock," $100, and the other, called "Privilege Stock," entitles the holder to 80 acres of first-rate farming land on the line of the road. These certificates are transferable, so that if a party wishing to purchase has but half the cash, and a friend who will loan him the other half, the certificates may be transferred to that friend and held as security for the return of the loan.

It is expected that a road traversing so rich and healthy a region of country as that through which the Milwaukee and Horicon is projected to be run, with the land on either side held in small parcels, and cultivated by those who own it, will prove one of the most profitable in the whole State. In fact, it is difficult to conceive how it can prove otherwise; but suppose there should never be a dollar of income derived from the stock, what would then be the position of the owner of a single share? Why, he would possess, in his own name, and at a cost of only $2 50 per acre, a free and clear title to eighty acres of rich land, near the line of a first-class railroad, within a few hours' ride of the city of Milwaukee, on Lake Michigan, whence the productions of the soil may be transported by water to any part of world. It may be said by some, that they can go into the interior of almost any of our Western States, and purchase the best Government land for $1 25 per acre; and so they can, but for a long time after making such a purchase, they would be without railroad facilities for sending their products to market, without society, schools, and the numberless benefits conferred upon every country by the construction of railroads; and further, if the individual's expenses, and the value of the time lost in locating to a new country, be added to the $1 25 per acre, his farm will be found to have cost him at least as much as under the arrangements of this Company, he is required to pay for a home in a populous neighborhood.

All this we say upon the supposition that the Milwaukee and Horicon Railroad Company will in good faith perform all they promise. And we do not see how we can hold any doubts upon the subject. The Company itself is a highly responsible one, having already expended over $1,000,000 on their road, and holding, as we learn from its last report, assets amounting to $2,900,000 more, of which $400,000 is in land already located. The directors are men of high character, substantial wealth, practical talents, and all acter, subst... Wisconsin. Its business is not exclusively confined to residents of Wisconsin. Its shares all bear the signatures of the President and Secretary, and at its offices in this city and Milwaukee, the President or other responsible officer may always be consulted during business hours.

NEWSPAPER CHANGE.—The Ripon *Home* has changed hands, and is now conducted by Messrs. N. W. FULLER and G. W. PARKER. In Mr. PARKER we recognize a thorough Republican, member of Assembly from Fond du Lac county for two sessions.

National Trial of Reapers and Mowers.

The trial of Reaping and Mowing Machines, under the auspices of the U. S. Agricultural Society, to take place at Syracuse, New York, from the 6th to the 18th of July, is exciting much attention. It is expected that not less than forty machines will compete for the prizes.

The highest prize—a gold medal, 8 inches in diameter, will be awarded to the best reaper and mower combined; and a large silver medal will be awarded for the second best, and a large bronze medal for the third best. For the first, second and third best reapers and mowers, adapted respectively to one purpose, the like prizes will be awarded—gold, silver and bronze medals. A diploma will accompany the gold medals. Silver and bronze medals are to be given to the first and second best automaton rake, clover and grass-seed harvester, hay-rake, tedding machine, hay or cotton press—and bronze medals for best three grain cradles, six hand-rakes, six hay-forks, six grass-scythes, six cradle-scythes, and scythe snaths.

SALE OF THE MILITARY RESERVE, PRAIRIE DU CHIEN.—The St. Paul *Times*, of the 27th ult., contains the following paragraph:

> Hon. HENRY M. RICE left this city, on Sunday, for Prairie du Chien. Mr. R. will be absent eight or ten days. He has been selected by the Administration as Commissioner to dispose of the Military Reservation at that place.

The McGregor *Times*, of the 28th, has the following in reference to the sale:

FORT CRAWFORD.—The sale on Monday last of the Reservation, as advertised in our last issue, went off quite satisfactorily. There was scarcely any portion of it of value but what was claimed by actual occupants in the sense of United States pre-emption provisions, and each settler was secured in his rights and allowed to enter at the Government price.

CARGO OF THE STEAMER MICHIGAN.—The Green Bay *Advocate* says that the steamer *Michigan*, which sunk at Erie recently, but was raised immediately, had on board 1900 bbls. flour belonging to Neenah millers, taken on at Green Bay.—The *Michigan* has been chartered by the U. S. authorities to carry brick from this city for the new lighthouses, and the *Advocate* calls upon Mr. REED to "fulfil his promise to put another good boat on the line in connection with the *Queen City*."

CLERGYMAN RUN OVER AND KILLED.—A respectably dressed man, apparently about 30 years of age, was knocked down and run over by one of the Second Avenue Rail Road cars, in New York, on Thursday night last. He died immediately from the injuries received. From papers and letters found about his person, it is supposed that he was the Rev. Valentine Felder, pastor of the German Catholic Church, New Jersey.

A PROVIDENT HUSBAND.—The hard case of a young widow with $20,000, compelled to give up her property if she married again, has been going the rounds of the papers. To offset it, the Sandy Hill *Herald* relates how a gentleman residing in the town of Granville, Washington county, died recently, and willed his wife a handsome sum—stipulating in his will that in case she again married the sum was to be doubled!—"And," pathetically adds the *Herald*, "may the grass ever be green upon his grave!"

A Critique from Putnam.

Putnam's *Magazine* is as plain-speaking on the right side of the great Slavery question, as Harper's *Magazine* is careful to touch the subject gently, with a sufficient leaning southwards to catch if possible the breath of patronage from beyond Mason's & Dixon's line. *Putnam* has had occasion to review a recent work by Bishop Hopkins of VT., in which he makes an extraordinary defence of Slavery, and here is what the magazine says of the book:

> The Right Rev. John Henry Hopkins has written some four or five hundred pages, to show that the citizens should obey the law; but omits to state what his pastoral advice would have been *to mothers with babes under two years of age*, in the latter days of the lawgiver *Herod* of Judea. He also does not find room in his prolix disquisition upon the duties of the *American Citizen*, which is the title of his book, to inform his pupils what he is to do when the law of the land contravenes with the plain law of God. For it is evident that, if a law is to be obeyed, because it is a law, a regulation to lie, or to steal, or to deliver up the fugitive, so it be legally enacted, has the same authority as one to collect taxes. But if the discretion of the citizen or his conscience are ever to interfere, or in other words, if there be the individual and collective right of rebellion, it would be only complaisant to make a pretty good show in the balance sheet of either of the above cities. Our grain dealers buy *some* wheat, and oats, and corn, as the freight Books of the M. & M. Railroad can testify. Our merchants and manufacturers *ought* to get their supplies in Milwaukee and Chicago, and they will do so just as soon as they are convinced it is for their interest. We have talked with some of our merchants about this matter, and they think goods ought to be bought here at home as cheap as in New York, Philadelphia, or Boston. *We have no doubt of the fact.* All that remains to be done is for the wholesale dealers of Milwaukee and Chicago to speak out. Let us hear from you.—*Whitewater Register.*

THE CROPS.—During our three days ride in the country, we took special pains to examine the condition of crops, and are prepared to give a favorable report.

The drouth has injured them somewhat, but the evil is more than remedied by the late refreshing showers. Pasturage is excellent, and stock is thriving.—*Manitowoc Tribune.*

Parade of the Fire Department.

The Semi Annual Parade and Inspection of our Milwaukee Fire Department came off, according to appointment, yesterday afternoon. The skies were lowering, and the streets muddy; nevertheless, the different companies turned out well and mustered at the rendezvous on Second street, about 2 o'clock P.M. The engines and other apparatus seemed to be in perfect condition, and the men were attired in tasteful and serviceable uniforms. The Cart of Supply Hose Co. No. 1, which has just been re-painted at the shop of JOHN LOWTHER, attracted particular attention.—The members of Engine Co. No. 4 appeared, for the first time, with their new N. Y. fire-caps, which are a decided improvement on those heretofore in use. The members of Ocean Engine Co. No. 5, wore white shirts, black pants and black caps. The other companies appeared in the same uniforms as heretofore. Before going upon the ground, Supply Hose Co. No. 1 had their picture taken by SEELEY, and Engine Co. No. 1 stood for a likeness to BROWN.

The procession having been formed on Second street by the Chief Engineer and Assistants, took a short march through Spring, East Water, Mason, Main and Biddle streets, to the "Island" in the Seventh Ward, where the engines were to be tested. Judges having been selected by the different Companies, the engines commenced playing; the first trial being on single streams from suction, through 100 feet of hose. On this trial Engine Co. No. 1 was adjudged to have won the broom. Next came two streams, each through 100 feet of hose, and in this, Engine Co. No 2 came out ahead. Lastly was the trial with the tank; each Engine taking suction, for four minutes, in turn, and playing through 400 feet of hose, into a tank holding about thirty-two barrels of water. The result of this test was as follows:

Engine.	Depth of water in tank.	Amount.
No. 1,	of 6¼ inches,	839 gal.
No. 2,	filled tank in 3 min. 25 sec.	
No. 3,	of 5½ inches,	817 gal.
No. 4,	of 4½ inches,	799 gal.
No. 5,	filled tank in 3 min. 28 sec.	
No. 6,	of 8¾ inches,	779 gal.

In this trial No's 2 and 5 came out ahead, with but slight difference between them. No. 1, claiming to have misunderstood the order, on the first trial, made a second one, and filled the tank in 3 minutes 44 seconds. The result was a very satisfactory one, showing great power and efficiency in all the machines.

This friendly contest over, the Department was dismissed, the several companies exchanging parting compliments with each other, uniting in a hearty "three times three" for the Chief Engineer, D. SHULTZ, and separating in high good humor. Everything passed off pleasantly, thanks to the admirable arrangements of the Chief Engineer. Neptune Engine Co. No. 2, Foreman BUENING, carried off the honors of the day, though No's 1 and 5 were close contestants for the prize. The show was highly creditable to the Department and satisfactory to the public.

CHICAGO REGATTA ON THE FOURTH OF JULY.—We are pleased to learn that the Chicago Regatta Association has resolved to celebrate the coming Fourth of July by a grand Regatta.—The prizes will be open to the competition of all boat clubs of States bordering on the Lakes.—There are to be three races and six valuable prizes.

The first race will be four, six and eight oared boats—distance four miles—the value of first prize is $200, and the second prize $100—entrance fee $10.

The second race will be for boats pulling two pair of sculls—distance two miles—the value of the first prize is $50, and the second $25—entrance fee $5.

The third race will be for boats pulling a single pair of sculls—distance two miles—the value of the prize is $50 and the second $25—entrance fee $5.

Boats must be entered for the contest on or before the first day of July next. The letter of entry must state the name of the boat, and number of oars. The boats must be pulled only by members entering them, and the entrance fee must be paid before the boat starts.

The races will be governed by the rules of the Association, copies of which may be obtained by addressing the Secretary. All communications should be addressed to J. W. ROBERTS, Secretary Chicago Regatta Association, box 2,850 Chicago Post Office.

This will be an entirely new exhibition for Chicago, and will doubtless prove a very attractive and pleasing one.—*Chicago Tribune*, 30.

We regret that the day fixed for the Chicago Regatta will probably prevent the attendance of any of our Milwaukee Boat clubs as they naturally prefer to attend the celebration of our National Holiday at Home.

Where Shall We Buy Our Goods?

Jewell, Rice & Co., of Milwaukee, advertise, in this number of the *Register*, a large assortment of Groceries at wholesale. We are assured by some of our first business men here, that they are liberal and honorable dealers, and as such we cheerfully commend them to our readers.

And they show good sense in advertising their goods in this section. No place in Wisconsin is growing faster—a healthy and legitimate business growth—than this town of Whitewater. We do more business here, too, than Milwaukee and Chicago merchants appear to dream of. Our merchants buy immense stocks of goods, and sell them, too. Our manufacturers turn out, yearly, an amount of manufactures that would make a pretty good show in the balance sheet of either of the above cities. Our grain dealers buy *some* wheat, and oats, and corn, as the freight Books of the M. & M. Railroad can testify. Our merchants and manufacturers *ought* to get their supplies in Milwaukee and Chicago, and they will do so just as soon as they are convinced it is for their interest. We have talked with some of our merchants about this matter, and they think goods ought to be bought here at home as cheap as in New York, Philadelphia, or Boston. *We have no doubt of the fact.* All that remains to be done is for the wholesale dealers of Milwaukee and Chicago to speak out. Let us hear from you.—*Whitewater Register.*

Betrothal of Three Sultanas at Once.

A correspondent of the London *Times* at Constantinople gives the following curious description of the ceremonies of the betrothal of the three daughters of the Grand Sultan of Turkey, which took place at the Palace of Top Kapou on the 23d of April. These Sultanas were born respectively in February 1842, August 1843, December 1844, all of whom are named in the Gotha Almanac for the present year as affianced to the Turkish Pachas named in the letter. It does not follow from this ceremony, according to Turkish usages, that their marriages will take place at an early day:

Yesterday was the day fixed for the Nikiah, or fiancailles, of the Sultan's three daughters, who had been promised in marriage some time ago to Kahmond Pacha, son of Fothi Ahmed Pacha, Grand Master of the Artillery; Ethem Pasha, son of Mehemet Ali Pacha, Captain Pacha; and El Hamni Pacha, son of the late Abbas Pacha, Viceroy of Egypt. It had been arranged that the ceremony should take place at the same time for the three at the palace of Top-Kapou on Seraglio Point, which, although abandoned by the Sultan as a residence since the overthrow of the Janissaries, is still the traditional place where many grand ceremonies are performed. To this palace therefore, the sultanas were to proceed in state from Dolma Bakche, and, to witness the procession all the harems of Constantinople had poured forth their inmates from an early hour; every window, every shop, every little knot whence it was possible to catch a view of the procession in the long distance from Dolmo Bakche to Top-Kapou was covered with Turkish women; they were squatting all around and all ejoes, of all the colors of the rainbow, topped with their white head-dresses, which contrasted with the black faces of their attendants.—Wherever the street widened it was lined with carriages, in which were reclining the slaves and favorites of the wealthy, and in many of these was to be noticed a lovely face reluctantly concealed behind the curtains, which would now and then be gently drawn aside by a delicate white finger covered with gems, to allow of the admiration of the European passers by. The Sultanas left Dolma-Backche at 11 A. M. At the head of the cortege was the Kislar Aga, or chief of the black eunuchs. He rode a superb charger magnificently caparisoned; he is frightfully ugly, but his dress was so brilliant, the gold was thrown over it in such profuse masses, that it stayed the eye and prevented his ugliness being noticed.—Then came the three Sultanas, each in a state carriage glittering with silver and gold, and drawn by horses whose trappings were also studded with silver and gold ornaments. There were eunuchs riding on all sides, and allin fine clothes and on splendid horses. Each Sultana was attended by her mother and by one slave. As they drove rapidly past a blaze of diamonds flashed across the eyes. Then came the other slaves and female attendants in about 30 carriages, vieing with their mistresses in the splendor of their dresses and jewels, and many far surpassing them in their charms. Although the Sultanas went to the Seraglio in person, neither they nor their future bridegrooms appear at the ceremony of betrothal. This is performed by procuration. The Kislar Aga represents the Sultan and the Sultanas on this occasion, and the Grand Vizier, Medachid Pacha, represents the bridegrooms. The witnesses were Bien Pacha, the Serasikier, Chefix Pacha of the mint, and Ali Ghalib Pacha, son-in-law of the Sultan. Like every Turkish father, the Sultan stipulates the sum his son-in-law is to pay for his daughter, and this sum becomes her dowry. This was fixed at 5000 Turkish pounds in this instance. The marriage contract is read before the witnesses, prayers are pronounced, and the first chapter of the Koran read, and this part of the ceremony is over. The Sultanas return to their residence, and are followed there by the presents offered by their fiances.

The presents are by no means the least important part of the ceremony, and are taken to the Imperial Palace in great State. First, three beautiful Arab chargers, magnificently caparisoned, were led past. The saddle-cloths were of the handsomest embroidery in precious stones I ever saw, even in this land of embroideries. These were a present to the Sultan himself from his future sons-in-law. Then came a present to the Sultanas themselves—first, sweetmeats of all sorts in covered china vessels; five of these vessels are put on a tray, and a cage of boops and gauze of various colors trimmed gaily with ribbons and flowers, covers the tray which is borne on a man's head. A hundred such trays of sweetmeats were borne past from each bridegroom. Then came other trays, larger, ten in number, on which were placed shawls and articles of dress; ten pieces of the richest brocade of silver and gold were among the dresses offered by El Hami Pacha, and various rich cashmere shawls. Then came two carriages, in each of which was an enormous coffer covered with velvet and ornamented with silver plates, full of costly perfumeries. Then came the most precious articles or tea-trays, covered in with silver cage, surmounted, in those sent by El Hami Pacha, by a golden eagle with spread wings. As the presents offered by El Hami Pacha were by far the most costly and tasteful, I will content myself with describing these. First, the 5000 pounds dowry was carried past in five red satin bags on five trays.—Then the head-dress of the bride on her wedding day—a gold and silver knot for supporting the hair at the back of the head, and a shield of velvet embroidered in brilliants and pearls with a verse of the Koran for the front. Then the veil of silk which is thrown over the bride, embroidered in pearls and brilliants on it—then the slippers, also and mass of pearls and diamonds, and the patterns used in the bath, covered with gold and precious stones, then the round toilet glass, of which the back was a plate of gold beautifully worked, and also studded with precious stones. Precious stones were scattered in profusion in all these articles of every day use, so to speak, but now came the jewels themselves—a splendid diamond tiara, very high, and long enough to go round to the back of the head, with a large bunch of flowers in diamonds dropping over the right ear; this had been set in Paris, and was beautiful in design, as well as costly. A pair of diamond ear-rings, with diamond drops of great size and perfectly oval shape. These gems, without an equal in the world, had been the property of El Hami Pacha's father, and had been procured for him in India; lastly a ring with a very large diamond, also of perfect shape and color.—Numerous other articles of less importance, though of great beauty, were offered by El Hami Pacha, who spared neither money nor trouble to find presents for his bride suited to his immense wealth. It is calculated that in jewels alone he has spent over £120,000 sterling. The same articles pretty nearly were offered to the other Sultanas by Mahemed Pacha and by Ethem Pacha; but of course, they did not attempt to rival the riches of their future brother-in law, El Hami Pacha. It took the same number of men to carry the presents—120 men, besides two carriages. It was a pretty sight to see all these riches go by between the crowds of the curious of the fair sex especially and to watch the various sensations on their countenances as the sun shone on all these treasures. What will be the effect on the little Sultanas to whom all this finery is destined? The effect is scarcely 15—a mere child in our ideas. Although the three have been betrothed, only one will be married this year—that one which is destined to Ethem Pacha, son of Mehemet Ali Pacha, who must not be confused with the Minister for Foreign Affairs, whose name is Aali Effendi Ethem Pacha.—After the presents were received at the palace the future bridegrooms were admitted to see his Majesty, and the Sultanas sent presents to their houses; a small box in gold and brilliants, a handkerchief embroidered in brilliants, the whole enveloped in a magnificent bokicha, or wrapper, also richly embroidered.

THE WEATHER.—After an unusual amount of frosty nights, and cold days, we are at last enjoying as beautiful weather as can be imagined. The recent showers have given a new impetus to the growing crops, that is really remarkable.—Should the weather continue favorable, we see no reason why we shouldn't send a larger amount of produce to market next fall, than ever before.

Spring wheat is looking remarkably well considering the time of sowing, but there is less sown than formerly. Of barley, there has been double the usual amount put in this spring, and also a large increase from last year's sowing of oats.

Of corn there has been less, and of potatoes, more than the usual amount planted.

After all our cold, backward weather, we are through with our spring's work about as early as usual.—*Ripon Home.*

THE WEATHER.—Vegetation has rapidly advanced the past week. The weather was quite warm the first of the week, but the frequent showers of the last few days have had a decidedly cooling influence. The fields are getting quite green, and the fruit trees are partly in bloom.—Wild plum trees are very full of blossoms, cherries seem to be mostly blighted by the cold winter, tame plums look pretty well, and apples give pretty fair promise.—*Platteville American.*

LARGE LOAD.—The *Queen City* arrived Tuesday morning, from Buffalo, with two hundred tons of freight for merchants here and up river towns. She refused freight for this city at nearly all the eastern ports on the route, where large quantities are waiting for shipment west. The freight business on this route will be heavy this season, and the *Queen City* is just the boat for the trade.—*Green Bay Advocate.*

☞ The large unfinished building erected by Leonard Williams at Menasha, has been leased for a Woolen Manufactory and is to be finished up at once. It will present a fine appearance and will add largely to the business interests of the place.—*Neenah Conservator.*

☞ Six steamboats visited Menasha on Monday last, viz: the Appleton Belle, the Aquila, and the M. L. Martin, river boats, and the Oshkosh, Berlin City, and Knapp, lake boats.—*Neenah Conservator.*

Correspondence of the Democratic Press.

From Kansas.

LECOMPTON, K. T., May 24th 1856.

A Proclamation—The Appointment—The Executive Truckling to Slavery.

Although Gov. Walker has been in the Territory for several days, at Leavenworth city, he has not hurried to Lecompton as he should. In the meantime Secretary Stanton, acting both as Governor and Secretary, has made the appointment of delegates for all of the counties in Kansas to a few counties in which a census has been taken. It was, no doubt, the design to have all this done before Walker should arrive, as the step it was determined to take would not comport with the promises Walker has made in the North. The proclamation is so ambiguously framed that it serves to give representatives to twenty-one counties, (about half the counties in the Territory.) It only gives representation really to sixteen, and only to a particular part of some of those. The census was only taken in ten counties in Kansas, yet in the face of these facts Mr. Stanton has gone on to make the apportionment.

By this disgraceful act one-half of the people of Kansas are disfranchised. Some fifteen or twenty thickly settled counties have no representation, will have no precints and no right to vote. The counties on the Missouri Border have thirty-seven out of sixty delegates, although many of these are in Indian Reserves.

Secretary Stanton has refused to make any provisions for election in counties where the bogus officers have purposely neglected to take the census. On the other hand he has allowed representation to five or six counties on lists of voters handed in secretly by pro-slavery men.—All of this fraud is so gross that it seems hardly possible that it could be contemplated.

LAKE.

Fire—Steam Saw Mill Burnt.

The steam saw-mill of Messrs. JAMES & SPILLEY caught fire last night about nine o'clock, and was entirely destroyed, together with a large quantity of lumber. The mill was nearly new, and the loss falls with great severity upon the proprietors, who have by this calamity been deprived of a valuable property, the fruit of years of industrious labor. There was no insurance. Eagine No. 1 was promptly on hand, and succeeded in saving considerable lumber, and in preventing the flames from spreading to the wharf adjoining.

This is the fifth steam mill which has been burned in this city, within two years.—*Oshkosh Courier, May 29.*

TEE RIVER TRADE.—The establishment of the line from this city through to Fond du Lac, seems to have given an impetus to the trade on the river beyond expectation. The Aquila and Belle come down each trip heavily loaded with passengers and freight, and they have all they can carry on their return. It needed but this extension of the running distance, by boats fast enough to ensure regularity, to convince the citizens of the up river towns that this route must eventually be all they can desire as a channel through which they can receive and export their goods.—*Green Bay Advocate.*

THE CROPS.—We hear but one account of the growing wheat in this county, and that is, it never looked better. The weather has been cool during the month, but we have had timely rains, and the ground at the time of sowing was in fine order. The weather has been equally favorable for oats and grass. We hear of some complaint about corn not coming up, but there is time enough to remedy this yet. Our farmers are in good spirits, and will do all that men can do to realize the expectation of the greatest crop ever raised in Wisconsin.—*Janesville Gazette.*

AFTER 'EM.—A crazy woman was wandering about the streets this morning, enquiring for the Governor. She says she has worked seven years for the people of Milwaukee, and either the Governor or the President must pay her. She proposes trying the former for it, and in case of a refusal will take her case up to Washington.—*Madison Journal.*

The Escape of Gen. Walker.

INTERESTING ACCOUNT OF MATTERS BY GENERAL HENNINGSEN.

One of the reporters of the N. Y. *Tribune* had an interview with General Henningsen, one of Walker's officers who lately arrived at New York, and obtained from him the following particulars of the closing scenes of the war:

Since the last advices received here from General Walker, the Allies made an attack on the entrenchments at Rivas with a force of 2,500 men. The assault lasted six hours, and was hotly contested throughout. As near as could be ascertained, the enemy lost 400 killed and wounded, including 3 prisoners taken by Gen. Walker; one cannon belonging to the Allies also fell into the hands of the filibusters. Walker's total loss in this engagement is killed and wounded did not exceed 50 or 60.

From that time until the second week in April, when Gen. Mora arrived and assumed command of the Allies, no offensive operations, to speak of, took place on either side. On the 11th of that month, the Allied forces, led on, it was said, by desert-ers from the Filibusters' camp, made a desperate attack on Gen. Walker's intrenchments and succeeded in gaining possession at one time of the lower plaza. About 150 had entered that portion of the town, when Gen. Henningsen succeeded in bringing three guns to bear upon them which mowed them down with great slaughter.—About half of them escaped, and the remainder being surrounded were obliged to surrender. After a good deal of hard fighting the enemy was finally repulsed, but not without evacuating the ground inch by inch. 103 prisoners in all remained in the hands of Gen. Walker after the fighting was over.

The hopes of the Filibusters were greatly sustained by the constant expectations of relief from Col. Lockridge and party on the San Juan River who were daily looked for. Of course no correct intelligence could be obtained respecting his situation and prospects, as all the avenues of approach from that quarter were in the hands of the Allies. But as day after day no news came from the San Juan, the garrison in Rivas began to despair and were fast losing their spirits, when information was received that Capt. Davis of the United States sloop-of-war St. Mary's, had seized the schooner Granada, containing half of General Walker's ammunition. Then, in view of the hopeless prospect before them, the design of retiring from the country began to be entertained.—Meantime Capt. Davis proceeded to the seat of war and endeavored to urge the contending parties to come to terms. General Walker, after prolonged and painful consultation with his officers, concluded to enter into stipulations with Capt. Davis, and he subsequently surrendered to him as an officer of the United States Government. The allies were not named in the instrument. By a full understanding, however, the retiring forces were not molested by them—one of the Costa Rican Generals attending Walker and his staff through the lines of the enemy, a hostage as it were.

At the instance of Captain Davis, the women and children, numbering about 70, were removed from the camp on the 20th of April. The formal capitulation took place on the 30th of the same month, and the troops set out on the march to San Juan del Sur on the 1st of May.

The whole number of Walker's men at the time of surrender was 175; of these, 56, including officers, were effective, 175 were on the sick and wounded list, and 40 were natives.

Provisions had been exceedingly scarce during the whole month of April, and the men had lived chiefly on mule and horse meat nearly all that time. Dogs, cats and other animals were sometimes killed to furnish a novelty. General Henningsen describes horseflesh as quite passable—when one can get nothing better.

From the Monroe Sentinel.

The Southern Wisconsin Rail Road.

G. W. TENNEY—DEAR SIR.—The inquiry is frequently made by citizens of Green Co. "when is the Rail Road going to be opened to Monroe." As some misapprehension seems to exist on that point, I beg leave to answer that inquiry through your columns.

The grading between Janesville and Brodhead is completed, except on two sections, on which there is sufficient force to complete them by the first of July.

The force on the *heaviest* section between Brodhead and Monroe, in the month of April, was sufficient to complete the whole by the 15th of August.

The track is laid nearly to Bass Creek station, where we expect to arrive in from two to three weeks.

Sufficient iron to lay to Brodhead, is expected to arrive at Milwaukee, by the 1st of June, and the balance to lay to Monroe, will be delivered as soon as needed.

So you will perceive that without any extra exertion the road will be put in operation to Monroe, between the 1st and middle of September. The work has progressed steadily from the day of its commencement. The reason no greater progress has been made during the past winter, is because it was very much, was simply *impossible*, and though April was a very unfavorable month, the contractors have this spring pushed their work forward with the most praiseworthy energy. Railroads are not built in a day, but I can assure you that from the knowledge I have of the M. & M. R. R. Co. there is every reason to believe the work will move steadily on to its final completion, and the statements of the Directors in their last annual report will be verified. Yours, &c. T. J. DODGE,

Resident Engineer.

Fourth of July.

Immediately after the adjournment of the Corn Exchange, yesterday morning, a meeting was organized to take measures for celebrating, in fit and proper style, the approaching Anniversary of American Independence. Reuben Kinne was called to the chair, and J. A. Kellogg appointed Secretary.

On motion of S. B. Grant, the chair was authorized to appoint a Committee of five, to take the necessary preliminary steps for getting up a grand celebration.

The chair announced the following gentlemen as the Committee;

S. B. Grant, Albert Bade, Frank Davlin, A. J. Langworthy and Caleb Wall.

Whereupon the meeting adjourned.

Accident on Board the Steamer Arctic.

On Sunday night, as the Steamer *Arctic* was nearing this port, though still some miles out, one of the cowls to the "manhole" of the boiler blew out, and several persons were scalded by the steam. Michael Curtis, a fireman, was quite seriously injured, though it is hoped not fatally. He was taken yesterday to the Hospital.—He is from Freeport, Ill., where he has a family. David Bowie, 1st Engineer, was also scalded, but not seriously. Two deck passengers, who were in the fire room were also slightly injured.

The fires were put out, and the damage repaired, so that the Steamer reached port safely, and went on to Chicago yesterday morning.

Opening Last Night.—Mrs. Anderson opened for the first time last night her elegant Ice Cream Saloon, and Confectionery, at Emery's old stand on Main Street. The first and second floors of the building have been fitted up in excellent style, and furnished in the neatest manner. The second story is intended for private parties, especially, and has every accommodation that could be desired. The rooms are conveniently large, lighted with gas when necessary, and in one of them is a fine piano for the gratification of their music loving visitors. The first story—the Ice Cream Saloon—is on a par with the upper one, and everything about the establishment looks as neat and cheerful as could be wished. Ladies and Gentlemen who may want a nice cooling feast at any time, will find everything to suit their tastes at Mrs. Anderson's.

Summer Vegetables.—The gardeners about town seem determined to have Summer vegetables, whether Summer comes or not. We had laid before us yesterday by Senator Weil, late of Washington Co., who has purchased the handsome place on the Watertown Plank Road, formerly owned by A. Finch, Jr., four large cucumbers, one of them 20 inches long, raised by Mr Weil's gardener, under glass. Large quantities of fresh vegetables are furnished to our family grocers daily from this garden.

Palmer's Addition.—There was a perfect rush yesterday for lots in the Addition just laid off on Spring street by Palmer & Co. We noticed while looking over the plot yesterday, that the streets have all been designated by furrows, and the stakes are stuck, so that any person with a map in his hand can go and locate to suit himself. Already the sound of the saw, the hammer and the trowel may be heard in the erection of new buildings there, and a general appearance of activity prevails all over the Addition.

Phoenix Insurance Company.—A new Company, with this name, and a capital of $500,000; 25 per cent of which is paid in, has just been organized in this city. C. G. Barnes is President; O. Alexander, Vice President, and D. M. Donald, Secretary. They have taken rooms in the basement of the Newhall House, corner of Main and Michigan Streets, and will commence business forthwith.

The Sons of Hermann.—The members of this German Society paraded yesterday afternoon through the principal Streets, preceded by an excellent band of music; they presented quite a good appearance. They gave a ball last evening at the Milwaukee Garden, and we presume they had a pleasant time of it.

A Card,

The undersigned gratefully acknowledges from H. Ludington & Co. $48 worth of lumber; also from H. Nazro & Co. $12 worth of hardware, in aid of the City Mission Free Church. Henry M. Thompson, Missionary.

A HOME FOR ALL.
I AM selling lots in Palmer & Co's Addition, in the Fourth Ward, and lying between Spring street on the north, and Fowler street on the south, upon such terms as will enable Laboring Men, Mechanics and Tradesmen of small means to obtain a HOME *all their own*. This tract is about 20 minutes walk west from the Spring street bridge in one of the healthiest portions of the city, has a fine commanding view of the Harbor, Railroad Depots, Lake, &c., is high and sufficiently rolling for drainage, has an easy grade, and is intersected by streets that are soon to be the most prominent avenues of the city. Already some of the first-class mansions are built upon Spring street in front of these lots, to which point the street is graded and finished with wide and commodious plank walks. As an investment merely, these lots offer inducements worthy of consideration, as it is confidently believed that no property in the city of the same grade has that promise so certain and large an advance. Our system of small monthly installments without interest, is a feature to which we call special attention. Persons wishing to purchase lots will do well to call upon the subscriber, who will show them maps of the property, explain the terms, &c. Young men by saving aside a small sum daily to become freeholders, by laying aside a small sum from their monthly earnings, and which in a short time will make them independent by the advance of property.

CITY LAND OFFICE.
LARKIN'S ADDITION.—The map of this addition is now finished, and may be found both at our office and the City Auction Room. The plots are requested to call and obtain copies.
The lots and streets in this addition are all staked out, with the names of the latter at the several corners, so that persons going there with the map in their hand, can find the location and number of every lot. The rapid improvements of Murray's Addition, the level character of the street, its proximity to the business part of the city, and the fine view of the river, railroad buildings and the different Wards all combine to render it the most desirable of any position now offering for a pleasant home.
We will offer the above lots at Public Auction on the 25th day of June, at 10 o'clock in the morning, at the City Auction Room.
Terms of sale $4 cash, balance in 1, 2 and 3 years at 8 per cent.

IN WAUKESHA COUNTY, about 26 miles from Milwaukee and near the Milwaukee and Watertown Railroad, a beautiful unmutilated tract of timber, belonging to the estate of the late Gov. Barstow, and lying at the head of Pine Lake, bordering Pine and Beaver Lakes.
This is a rare specimen of unimproved location, unrivalled for its exquisite scenery, which is romantic and picturesque in the extreme, commanding a broad, open view of the whole of Pine Lake.
It is a very desirable place for a gentleman's country seat, and affording admirable building sites on the lake bluffs. The situation is notedly healthy and presents every facility for summer resorts, such as boating, boating and fishing, with wild game in abundance at all seasons.
It will be sold at a very low price, making it a good investment for speculators.

INSTRUCTION.

SALOM'S
MERCANTILE COLLEGE!
A Perpetual Ticket for $25!

GENTLEMEN desirous of acquiring a thorough Mercantile Education, are assured that the advantages presented at this institution are unsurpassed.
The Principal takes this opportunity to acknowledge the courtesy of several of the most distinguished Shipping and Jobbing Houses in the East, who recently allowed him to examine their books, besides explaining many things connected with their business, which, adopted as original plans for economizing labor, which, adopted as in some instances after the experience of half a century, may be justly designated the *ne plus ultra* of the art.
These advantages, granted upon Mr. SALOM'S long practical experience in a variety of Counting Houses, have enabled him to elaborate a novel and valuable series of transactions, introducing all the great heads and ramifications of mercantile routine to be actually developed by the student. A perpetual ticket confers the privilege of instruction in Book-Keeping at all times, as well as tuition in Writing, Mercantile Calculations, Law, Correspondence Forms, &c.
The Surveying and Mathematical department is in progress during the day and evening.

No. 49 Wisconsin Street, Milwaukee, Wisconsin

THE PRINCIPAL RESPECTFULLY informs the Public that the Winter Term of this School commences on Monday, December 8th, 1856.
This Institution, has been in successful operation for seven years. The Academic year comprises 4 terms of 11 weeks each, the first commencing on the 2d Monday of September.
The whole number of Students in attendance at present 92.

PRIMARY DEPARTMENT.
A competent Female has charge of this department, and children are received at any age.

THE LADIES' DEPARTMENT
IN A SEPARATE ROOM,
Young Ladies reside in Prof. L.'s classes in English Grammar, Rhetoric, Composition, &c., and are taught a graceful, and fashionable style of Writing. Instruction is next and fashionable style of Writing. Instruction is given in Embroidery, Drawing, Music, Latin and German, which are taught to read, write and converse in and scholars are taught to read, write and converse in French daily.

COMMERCIAL DEPARTMENT.
This department is under the immediate charge of Prof. LANGE. Instruction is given in all the branches of a thorough English and Commercial Education, including the Higher Mathematics, French, Latin and German Languages, and in designing will prepare youth for college or business life. Perfect facilities are afforded to young gentlemen for acquiring, in the most expeditious manner, a thorough knowledge of Commercial Science, as practically employed in the Counting Rooms and Business pursuits generally.
The Full course embraces the most approved and practical forms for keeping Books by Double Entry, in the various departments of Trade and Commerce, including General Wholesale and Retail, Mercantile Exchange, Commission, Shipping, Individual Partnership and Compound, Steam Boat Business and Commercial Correspondence in English, French and German. The Student is taught to copy all manuscripts in a bold, and rapid hand, which is conducive as a great auxiliary to him in securing an excellent style of writing—a hand writing in every respect adapted to business pursuits is also warranted to every student who takes a full course with the Principal.
Through the extensive business acquaintance of the Principal, many of his students obtain profitable situations.
Lady's and Gentlemen's French Class at 4½ P. M.—German Class at 7½ A. M.; German Class at 5 P. M. Evening Class at 7½ P. M.

LESSONS IN
Foreign Languages.

MR. AND MRS. Dr. S. B. DE CRETY, from Paris, for four years past instructors in foreign languages in Milwaukee, have the honor to inform the public that they will form classes in the French, Italian and Spanish Languages on the 1st of September next. The course of instruction will be according to the age and intelligence of the pupils, and the classes kept entirely separate, their hours being arranged with that view.
Gentlemen and ladies who begin to speak either of these languages, can receive lessons in Reading and Conversation, Mr. De Crety furnishing books of the best French authors. Those contemplating to learn vocal music in either of these languages, will find a competent music teacher in the establishment.
The hours of instruction will be from 8 to 12 o'clock A. M., and from 2 to 5 P. M.. And in the evening from half past 6 to 8, for conversation.
Mr. DE CRETY will also give lessons in French, Spanish and Italian, at his office, to gentlemen only, from 7 to 10 o'clock in the evening, as also lessons in Fencing, the use of the Sword, and all military exercises. Persons of delicate constitution and feeble temperament, as soon as desire confined to their offices and engaged in sedentary pursuits, will derive from these exercises, improvement to their health, acquire strength in their arms and limbs and agreeable recreation.
Mr. De Crety will also form similar classes for children, from 10 to 15 years old, at his house or office, as parents may prefer. Ladies and mothers who desire to see their children strong, active and robust, can judge for themselves, after a few weeks trial, as to the effect of these different exercises upon their health.
The continued patronage of the public is respectfully solicited.

To MERCHANTS.—Mr. De CRETY will take charge of French correspondence to all the principal cities of France and will procure all Price Currents that they may want.

RUSSELL'S PATENT MASTIC
ROOFING.
Patented February 20th, 1856.
THE mastic roofing first introduced and successfully tested for the last four years, and now in use on a large number of public and private buildings in this city, and which has been thoroughly tested by the severest winters, is now offered to the public as the most durable, cheap, simple and effective roofing for all kinds of buildings, and is peculiarly adapted to steep and flat roofs of all kinds, whether of tin, iron, felt, gravel or shingle, &c.
We are well aware, that in offering a new invention to the public it must meet with prejudice, opposition and ridicule, and will depend on its own merits for success. We therefore freely offer it, requiring no purchase money, and are willing to take pay for labor and materials only after the roof has been in use for one year, and proved itself to be all we claim for it, and to be entirely satisfactory to the purchaser, which also refers to the roof. Our terms will be liberal.
FIRE-PROOF.
By this preparation it makes a much more durable and more desirable roof than any other Cement Roofing now known.
For References see Circulars, and the Roofing can be seen on Alderman Flanagin's Candle Factory, and on the Pinoche Building.
The above invention was made by C. C. Hoff, of Albany N. Y. The Right and Patent for Milwaukee County was purchased by E. P. Russell. Date of Patent February 19th, 1856, and Patent was obtained by Him February 19th, 1856, and was awarded the first Premium and Diploma at the Albany Co. Fair in the Fall of '56. We are authorized Agents for the sale of Town and County Rights in the State.
